

# ADA Handicap Convertible Sink

"Frameless Cabinetry"

The sink cabinet is installed in a normal fashion. It functions as a "standard" cabinet until such time as it is converted to an "accessible" configuration.

Cabinet prior to any conversion

Cabinet prior to any conversion  
with the doors open

Doors have been removed by  
unclipping the hinge mechanism  
(No tools required)

This concept is also used for the bathroom

The deck and toe kick have been removed.  
This part was supported by adjustable  
shelf pins and plastic retaining clips. All  
parts can be re-installed to the original  
configuration.
